

## **Wisconsin Legislature – Legislative Technology Services Bureau**

**Position Title:**        **Systems Engineer**

**Location:**            17 W Main St Suite 200  
Madison WI 53703

**Schedule:**            Full Time

### **Introduction**

The Legislative Technology Services Bureau (LTSB) provides leading-edge information technology services and support to the Wisconsin Legislature. LTSB is a nonpartisan legislative service agency located on the Capitol Square in downtown Madison, Wisconsin. We provide a fast-paced and cooperative atmosphere with many opportunities for professional growth.

LTSB is currently accepting applications for a skilled and enthusiastic **Systems Engineer** to join the Enterprise team. Salary is dependent on experience and qualifications.

### **Position Description**

The Systems Engineer is responsible for implementation, administration, and some design of enterprise server systems, networked services and appliances that support the Legislature's business operations. This position will also focus on supporting the Legislature's web services infrastructure. Responsibilities include administering Windows 2008/2012 IIS, Apache and Jetty web servers, monitoring and maintaining the systems supporting the websites.

### **Knowledge/Experience Required**

- IIS, Apache, Jetty web server administration and website security
- Systems implementation of Windows Servers using enterprise practices
- Networking concepts, Windows server configuration and support in heavily virtualized environments
- Formal education in computer science and/or equivalent professional experience
- Strong problem solving ability
- Exceptional oral and written communication skills
- Excellent customer service skills
- Able to work in a nonpartisan environment

### **Knowledge/Experience Desired**

- Relevant professional certification
- Knowledge of Umbraco Content Management Systems (CMS)
- Web development technologies

### **How to Apply**
